

TERMS AND CONDITIONS

All bookings and participation to an F1 Driving Experience are subject to the 2022 F1 Driving Experience Terms and Conditions issued by Winfield Racing School. The following terms and conditions ("**Terms and Conditions**") will apply without exception to every Participant ("**Participant**") taking part in an F1 Driving Experience ("**Event**"), whether as an individual or as part of a group booking, whether as an invitation or as a purchase. The Booking Form (in case of purchase), these Terms and Conditions and the mandatory "Release/Waiver and Assumption of risk Form" represent the entire agreement between Winfield Racing School ("**WRS**") and the Company ("**Company**") that has made the booking (if appropriate) and each Participant with respect to the Event. The Company asking a group booking must ensure that all relevant provisions which apply to its Participants (and accompanying guests) are communicated to them beforehand and that each Participant (and accompanying guest) is eligible to participate.

The Company will be responsible towards WRS, the Formula One Team ("**the F1 Team**") and the Circuit Manager and agree to indemnify and hold harmless any or all of them if any Participant has provided false information, wrongly filled in any document, and/or didn't read carefully the various documents. WRS may appoint third parties to assist with the organization, logistics and running of all on-track activities during the day. Such third parties shall act as representatives of WRS and shall have authority, on behalf of WRS, to make all necessary decisions in operating and managing any and all aspects of the Event.

By signing and returning the Booking Form or by accepting the invitation, the Company and/or each Participant are agreeing to be bound by the entire agreement as defined above. Upon receipt of the Booking Form or the acceptance to the invitation, WRS will confirm the booking and will issue an invoice for the amounts owed (if the case may be). Places will only be secured on receipt of full payment and all documents received and signed. In particular, WRS reserves the right to make changes to the Event running schedule if weather conditions affect the safe conduct of any of the scheduled on-track activities.

14.2 If the Participants are late and/or are not complying with the timetable of the Event and/or are driving in an inappropriate manner on the track causing track interruption or intervention (red flag, spin...), WRS may be forced to reduce the running schedule and without any right to be compensated for anyone.

In such circumstances, WRS and/or the Circuit Manager shall have the right to invoice Participants for all necessary costs until full compensation for such damage.

16.2 In application of article L.321-3-1 of the French Sport Code, material damage caused to a Participant by the fact of something that another Participant has under his/her custody cannot give rise to any compensation by this Participant, WRS or the Circuit Manager.

16.3 Participants are liable, even without proof of any fault on their part, for any direct or indirect physical injury caused to another Participant, a WRS' or Circuit Manager's employee or contractors, when driving their vehicle during an Event.

16.4 In the event that a Participant suffers materiel or physical damage during an Event, WRS and/or the Circuit Manager's liability may only give rise to compensation for his/her loss under prior proof of WRS and/or the Circuit Manager's inexcusable fault.

16.5 Any injury suffered by a Participant may be aggravated by any rescue operation that may be necessary in case of accident and/or emergency during an Event,

for which the Participant would fully assume the associated costs, without such aggravation being attributable to WRS and/or the Circuit Manager.

16.6 WRS and/or the Circuit Manager are only bound by a security obligation of means and not of result.

17 INSURANCE

17.1 In accordance with the French Code du Sport (Articles R 31-10 and L-331-10, especially), WRS has undertaken an insurance through its insurance broker Gras Savoye, to insure the organization of such an Event, in particular through the civil liability guarantee contract n° 58.956.937 underwritten by Allianz. In addition, WRS has subscribed with ALBINGIA (policy No. IA1109892) an individual accident cover covering a maximum capital of 50,000 euros in the event of death or total permanent disability following an accident.

17.2 Nevertheless and in accordance to Article L.321-4 of the same above mentioned code, WRS informs and encourages Participants of their interest to subscribe their own life and health individual insurance policy that covers the bodily injuries that motorsport can potentially expose them to. Each participant shall be responsible for taking out his/her own personal travel insurance.

17.3 All cars used during the Event are valuable high performance vehicles. Accordingly, each Participant shall be liable for any damage caused to a car (or any ancillary equipment) as a result of his/her fault, negligence, recklessness or failure to comply with instructions and briefings received on the day. In such circumstances, WRS shall be entitled to invoice the Participant for all necessary repair costs until full compensation. WRS encourages Participants to subscribe their own insurance contract to cover damages caused to third parties (third participants, staff, cars, racetrack, accommodation, and any ancillary equipment) and for which Participants are liable according to paragraph 16 and 17.

18 CAR DAMAGES

18.1 As stated in paragraph 16 and 17, each Participant is totally financially liable for any damage caused to the vehicles that have been entrusted to him/her, this regardless of the participant's responsibility, most notably in the following cases: going off track, driving over abrasive portions, hitting cones, contact, collision, etc. Payment for the material (parts, bodywork, and work-force) caused in each accident shall be made to WRS under the conditions stated in paragraphs 18.5 and 18.6.

18.2 Each Participant is responsible for having his/her car and tyres checked by the car's referring mechanic after each running session. Any damage found and noticed by the referring mechanic after a running session shall be imputed to the Participant who was driving the car during the session prior to the mechanic's observation. A Participant who has not had his/her car and tyres checked before his/her running sessions will not be able to claim that the damage does not fall on him.

18.3 It is specifically agreed that there will be no seeking of responsibility in case of a collision between Participants, so that any Participant cannot claim an exemption from damage payment in case he/she would be the victim in a crash that has caused damages to his/her car.

18.4 Although WRS will make its best endeavours during the Event to repair the car or make available a spare car to the Participant in order for him/her to continue his/her running program, WRS cannot be held liable for non-completion of the running program as a consequence of car damages. No refund nor compensation will be made.

18.5 In case of damages, WRS will proceed with an evaluation of the car at the workshop and will edit a damages report with the total costs of the repairs including car parts, bodywork, tyres, consumables and work-force. The damages report cannot suffer from any contestation by the Participant and the Participant shall pay the total costs without delay and upon receipt of a detailed invoice by WRS.

18.6 In addition, any off-track that results in driving on the abrasive parts (run-offs) of the circuit (red lines) and / or any abnormal wear caused to the tyres by an inappropriate driving (wheel blocking, spin...) shall automatically and without any contestation result of the invoicing of a set of tyres to the participant.

18.7 Upon request of a Participant before the Event (or of the Company making a group booking), WRS could eventually propose insurance options to cover the damages on a car. Availability of such option as well as the conditions of execution will always depend on the type of cars and of the Event's conditions.
