

F4 DRIVING EXPERIENCE

LEARN. DRIVE. ENJOY. REPEAT!
DISCOVER THE THRILLS OF SINGLE SEATER
WITH WINFIELD RACING SCHOOL

F4 DRIVING EXPERIENCE CONCEPT

GET READY TO LIVE YOUR LIFE IN THE FAST LANE!

WELCOME TO WINFIELD: Unleash your passion by taking your first steps behind the wheel of a single-seater. The F4 DRIVING EXPERIENCE brings together the very best ingredients to live this day in full-speed: tailored workshops surrounded by professional staff, 7 FIA-certified Mygale F4 cars, and 200 kilometers of driving per day on one of the most cutting-edge racetracks in Europe: the Circuit Paul Ricard near the French riviera.

Time is running out. Enjoy the adrenaline shot before getting in your car. Feel the excitement as you take a seat just inches above the tarmac. Driving position may feel slightly unfamiliar but wow... the view is amazing!

It's time to scratch your competitive itch on the iconic Paul Ricard track. Buckle up, and brace yourself for the rush of your life. You're taking control of this wild adventure, familiarising yourself with the reactions of your car. Each lap becomes smoother as your confidence builds up.

No words can describe what driving a single-seater car feels like. One thing is certain: you will be living a heart-racing experience that will give you a completely new perspective on motorsport world.

F4 DRIVING EXPERIENCE

THEY DID IT

"The F4 DRIVING EXPERIENCE was a real 'back to basics' for me. I still apply driving techniques taught during that day when I go back to the track in my sports car."

"What a great experience ! First-class racing facility. I will never forget my time there."

"I've improved my driving skills so quickly in one day thanks to the instructors' advice. Can't wait to come back to learn even more!"

"The attention to detail, professionalism, kindness and availability of the Winfield staff... A very high-quality service."

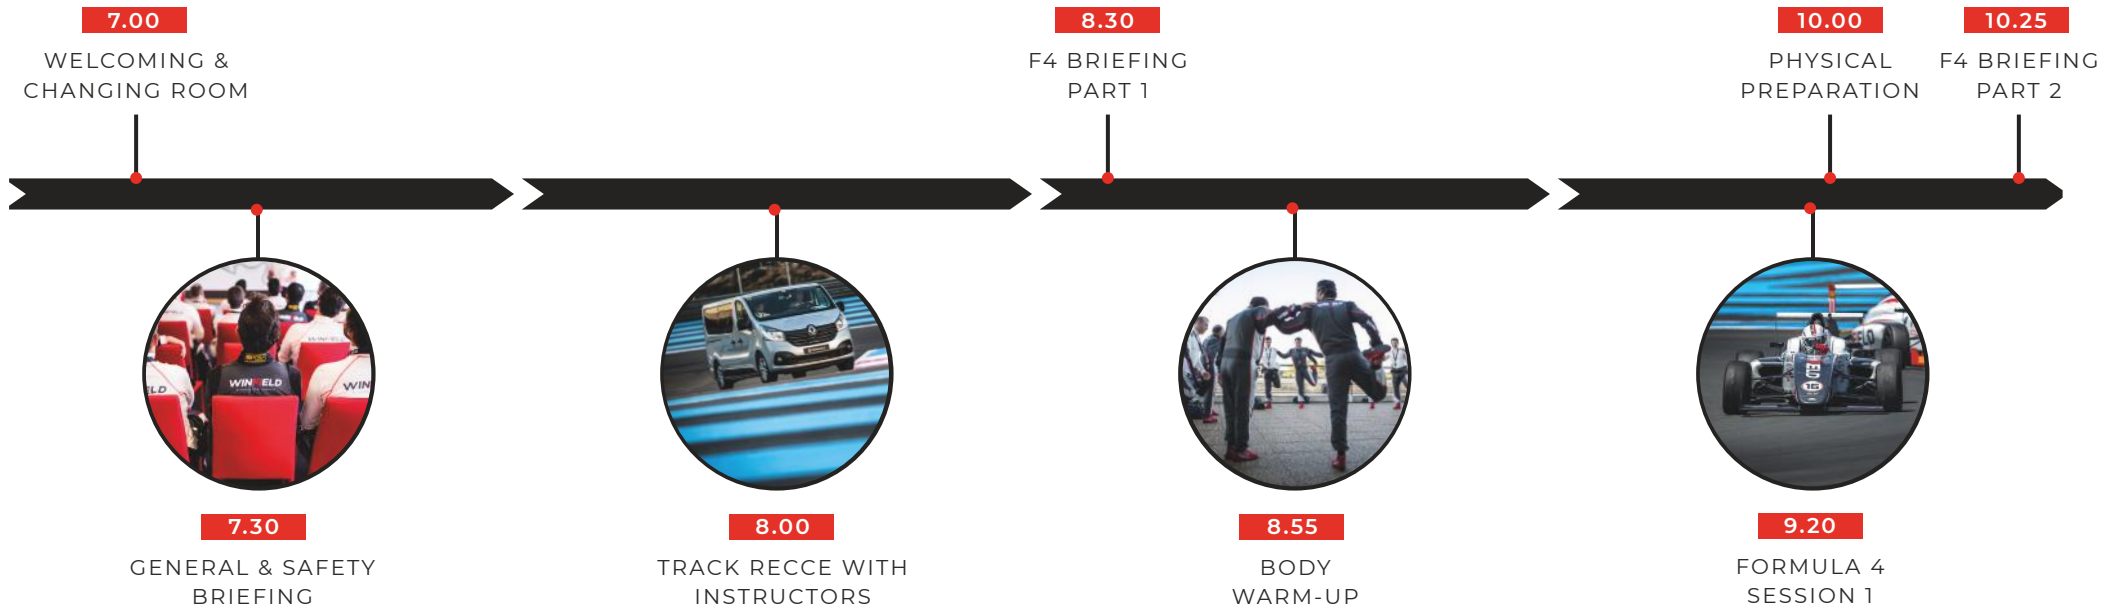

"I've had such an amazing day with my friends with incredible sharing moments. Huge congrats to the WINFIELD team!"

"I simply loved it... from start to finish! The Formula 4 you get to drive and the overall experience is definitely one to remember."

PROGRAMME*

OF THE DAY

Welcome to the world of motorsport! Just like a pro racing driver, your fireproof equipment and helmet, which will be with you throughout the day, are meticulously prepared and waiting for you in individual lockers.

Once you're suited up in your racing gear, it's time to attend the general and dedicated safety briefing to learn the FIA rules! Before each driving session, Winfield instructors will also teach you the basics of driving a single-seater.

Let's face it! The Paul Ricard circuit is known to be very technical. Learn all the details of the famous French racetrack before your first driving session.

Get on board a minivan and let the Winfield instructors guide you step by step to learn the perfect racing lines, the braking points and the apex of each corner.

You don't become a single-seater driver overnight. Except at Winfield. Nevertheless, racing requires to be in an excellent physical condition.

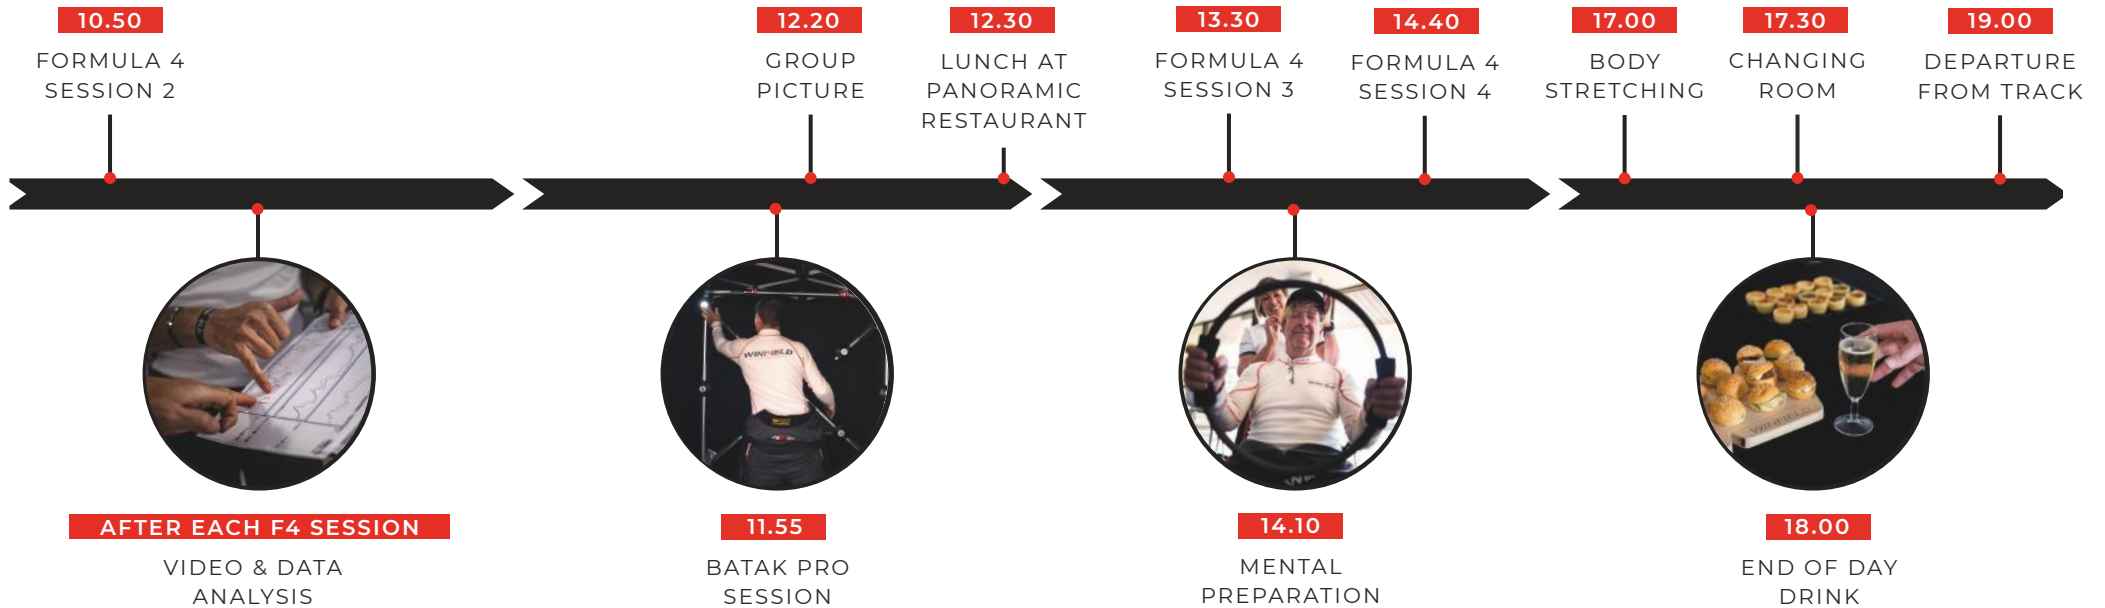

Fortunately, we've got you covered. Our professional physiotherapists will assist you in your physical and mental preparation: muscle warm-up and toning, reflex and concentration testing, post-driving stretching, and much more. Congratulations! You are now fully prepared to take the wheel.

Lights out and away we go! It's time to discover the unique sensations of driving a Formula 4.

You're a little nervous knowing the car could spin at the slightest mistake. Fortunately, the first laps take place behind the safety car. This will help you to understand the car's behaviour in the best conditions. When this session is over, there is only one thing left to do: go back on track!

PROGRAMME*

OF THE DAY

Data analysis, lap-by-lap comparisons, braking force, re-acceleration time, like pro racing drivers, Winfield engineers are by your side after each track session to analyze your driving skills. They provide valuable tips and advice thanks to the data acquisition from your car.

These debriefings allow you to set new objectives for each session, and improve your on-track performance, without forgetting the main goal: enjoyment.

Oh yeah! Adrenaline is starting to kick in. You feel yourself getting faster and faster. It's a sign the extremely challenging Batak Pro is helping you to progress. This is an essential tool for Formula 1 drivers to improve reaction time and hand/eye coordination.

Can you beat Esteban Ocon's record of 147 points in only one minute? Go!

Did you know the body achieves what the mind believes? Our mental coach will give you all the tools to unlock your full potential, boost your self-confidence, and effectively manage your emotions.

Take a deep breath, close your eyes and stay focus.

All good things come to an end. You have just completed this once-in-a-lifetime experience. It's now time to share your first impressions and highlights of the day with your fellow racers and Winfield team members over a glass of champagne. Appetizers, treats and surprises await you on the terrace overlooking the racetrack.

You will leave with unforgettable memories and professional photos of your experience at the Winfield Racing School.

F4 DRIVING EXPERIENCE

F.A.Q.

DO I NEED TRACK EXPERIENCE?

WINFIELD RACING SCHOOL is open to all levels of experience, from pure rookies to experienced racers! Our instructors adapt their coaching to your driving level and ensure you will enjoy the experience safely. Whether they are novices or experienced drivers, each participant takes benefit from this programme at his/her rhythm and speed.

AM I THE ONLY DRIVER ON-TRACK DURING DRIVING SESSIONS?

The **CIRCUIT PAUL RICARD** track is fully privatised during the F4 DRIVING EXPERIENCE. Throughout the driving sessions, you will share the track with 5 other drivers maximum. This will allow you to enjoy the track without traffic risk, without pressure, at your own pace.

CAN I WEAR MY OWN DRIVER EQUIPMENT?

For safety reasons, WRS will provide all protective clothing and equipment required for the event at FIA standards. Due to insurance conditions, participants will not be permitted to wear any protective clothing or use any equipment other than the one provided.

CAN MY FRIENDS AND FAMILY COME ALONG TO WATCH?

For drivers that would like to bring someone on the event day, we propose the accompanying guest accreditation (see page 7). For safety reasons, kids under 12 and animals are not allowed to have access to the circuit.

WHAT ARE THE MAIN ELIGIBILITY CRITERIA?

In order to participate to the **F4 DRIVING EXPERIENCE**, you must ensure that:

- You **speak and understand English or French** fluently;
- You hold a **full current and valid driving licence** and/or racing license;
- You are between **1.50 metres** and **1.90 metres** tall;
- You don't weigh more than **95 kgs**;
- Your foot size doesn't exceed **EU 45**;

Participants **not matching** the height and weight criteria mentioned above have the possibility to register to the event by **accepting the risk to be refused from all or part of the on-track activities** if they do not successfully perform and complete the standard safety procedures. In that case, participants accept that no refund or compensation will be made.

DO YOU NEED MORE INFORMATION?

Car damage conditions, insurances, cancellation terms, payment terms...
